The following reports on trolley bus routes in Tashkent, miscellaneous
Tashkent town plan information, new construction at the Cable Plant in
Tashkent, and the Communications Institute in Tashkent.

50X1-HUM

50X1-HUM

1. The report on trolley bus routes provides a detailed description of each of the nine routes in Tashkent and individual map overlays of these routes.
2. The miscellaneous town plan information report briefly describes and locates a Communist Party school, Sredneazfatskiy Gosadarstvenny Universitet (Central Asian State University), the Elektromekhanicheskiy Tekhnikum (Electro-mechanical ~~tekhnikum~~), the Tashtyurma (Tashkent Jail), and a former military school for Greeks in Tashkent.
3. The report on new construction at the Cable Plant in Tashkent briefly describes the construction of a new building and locates it in a sketch of the plant area.
4. The brief report on the Communications Institute appears to be a rather inaccurate general description of the physical layout and location of the civilian communications school in Tashkent.

50X1-HUM

THIS IS UNEVALUATED INFORMATION. SOURCE GRADINGS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

The city of Tashkent, Uzbek SSR., had nine trolley bus routes.

When not in use the trolley buses were parked on the western side of ulitsa Tarasa Shevchenko, on the northern side of the intersection of ulitsa Tarasa Shevchenko and ulitsa Chekova.¹ The routes taken by these trolley buses are described below and shown on the map overlays on pages 3 through 11. All of the streets had asphalt surfaces and were between 15 and 20 meters wide. All trolley buses travelled their same routes back to their starting points.

50X1-HUM

50X1-HUM

1. Trolley bus route No. 1 started at the Tashkent railroad station and went up ulitsa Tarasa Shevchenko to the Muzey Iskusstva, where it turned left and followed Proletarskaya ulitsa to Skver Revolyutsii; from Skver Revolyutsii the route turned right, completing a semicircle before it turned right again to follow ulitsa Engel'sa to ulitsa Stalina. From ulitsa Stalina the route turned right on ulitsa Lenina, left on ulitsa Lakhuti (which later became Prospekt Navoi), and right at Komsomol'skaya Ploshchad' to follow ulitsa Khamzy as far as Ploshchad' Iski-Dzhuva, the end of the line. (The overlay on page 3 shows this route).

C-O-N-F-I-D-E-N-T-I-A-L

C-O-N-F-I-D-E-N-T-I-A-L

- 2 -

2. Trolley bus route No. 2 began at the Tashkent Textile Combine and went up ulitsa Bogdana Khmel'nitskogo to Ploshchad' Besh-Agach, where it turned left to follow ulitsa Furkata as far as Komsomol'skaya Ploshchad'. From this square the route continued along ulitsa Khamzy to Ploshchad' Iski-Dzhuva, turned right on ulitsa Sabira Rakhimova, and turned right again onto Turk-Kurganskaya ulitsa, which it followed to the end of the line, about 100 meters west of Poligraficheskaya ulitsa. (See page 4).
3. Trolley bus route No. 3 started at Ploshchad' Besh-Agach and went south on ulitsa Bogdana Khmel'nitskogo as far as the Frunze Memorial, where it turned left onto Pedagogicheskaya ulitsa, following this street and several others [redacted] as far as the Muzey Iskasstva, From the museum the route turned left onto Proletarskaya ulitsa to go to Skver Revolyutsii, where it turned right onto ulitsa Pushkina, which it followed to the end of the line at Ploshchad' Pushkina, also called Ursat'yevskaya Ostanovka. (See page 5). 50X1-HUM
4. Trolley bus route No. 4 started at Ploshchad' Ekskavatornogo Zavoda and travelled [redacted] to Ploshchad' Pushkina, from where it turned right on ulitsa Pushkina, right on ulitsa Stalina, right on ulitsa Lenina, left on ulitsa Lakhuti (which later became Prospekt Navoi) to Komsomol'skaya Ploshchad', and right on ulitsa Khamzy to Ploshchad' Iski-Dzhuva and the end of the line. (See page 6). 50X1-HUM
5. Trolley bus route No. 5 started at the Tashkent railroad station and went up ulitsa Tarasa Shevchenko to ulitsa Chekova, after which it turned right on ulitsa Chekova (which later became ulitsa Zhukovskogo) and right on ulitsa Pushkina, which it followed as far as Ploshchad' Pushkina, where it turned left to travel [redacted] to the end of the route at Ploshchad' Ekskavatornogo Zavoda (See page 7). 50X1-HUM
50X1-HUM
6. Trolley bus route No. 6 began where route No. 2 ended, on Turk-Kurganskaya ulitsa about 100 meters west of Poligraficheskaya ulitsa, and went east to Poligraficheskaya ulitsa, where it turned left, going as far as Kislovodskaya ulitsa, which the route followed to the end of the line at the Second Greek Settlement. (See page 8.)
7. Trolley bus route No. 7 started at Ploshchad' Besh-Agach, went down ulitsa Bogdana Khmel'nitskogo about 100 meters, and turned right around the southern perimeter of Park Komsomol'skoye Ozero onto ulitsa Chilanjar, which it travelled down to ulitsa Mukimi, where it turned left onto ulitsa Shota Rustaveli and the end of the line. (See page 9).
8. Trolley bus route No. 8 started at Komsomol'skaya Ploshchad', went west on Prospekt Navoi for two stops, and turned right on ulitsa Manona Uygura, which it followed to the end of its line at School No. 111, which was about two kilometers past the trolley circle which was the end of the line for trolley car No. 7. (See page 10).
9. Trolley bus route No. 9 began, like route No. 7, at Ploshchad' Besh-Agach and went down ulitsa Chilanjar, which it travelled for three or four stops past ulitsa Mukimi before coming to the end of its line. This route was started in early 1960. (See page 11).

Comments:

50X1-HUM

1. It was rumored that a trolley bus park with a capacity of about 150 trolley buses was to be built near ulitsa Chilanzar. Many apartment houses were built along ulitsa Chilanzar between 1958 and [redacted] October 1960.

50X1-HUM
50X1-HUM

2. Streetcars No. 7, 8 and 11 travelled west on Prospekt Navoi past Komsomol'skaya Ploshchad'; streetcar No. 7 continued west on ulitsa Manona Uygura to the trolley circle, and streetcars Nos. 8 and 11 turned left onto ulitsa Diruni.

Field Comments:

3. This portion of Proletarskaya ulitsa was given as ulitsa Engel'sa on the base map.
4. Pushkinskaya Ploshchad' was given as Pushkinskiy Park on the base map.

50X1-HUM

1. Construction of a new building for the Cable Plant in Tashkent, Uzbek SSR, was started sometime in 1958. [redacted] in October 1960, the building appeared finished from the outside, but it was not being used. [redacted] the Soviet foreman and workers at this site refer to this construction as the silovoy tsekh (power shop) [redacted]

50X1-HUM

50X1-HUM

50X1-HUM

2. This new building was located directly north of the plant area as shown on the rough sketch of this area given on page 3. The structure was about 250 by 150 by 10 meters in size; it had a basement and one floor. The basement foundation, the first floor, the roof, and the pillars supporting it were all of concrete. The walls of the building were of yellow bricks. There were four overhead cranes inside the building. [redacted]

50X1-HUM

3. A legend for the rough sketch on page 3 showing the new construction and other plant buildings [redacted] appears below.

50X1-HUM

- a. The new construction discussed above.
- b. One-story brick building used as an office building.
- c. TSHK (T Sha Kah) Shop, which produced heavy cable.
- d. Shop No. 20, which twisted and wound wire. It was a new shop completed in 1957 and had a basement.
- e. Prokatnyy (Rolling) Shop.
- f. Shop No. 55.

50X1-HUM

THIS IS UNEVALUATED INFORMATION. SOURCE GRADINGS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

1. A Communist Party school

[redacted] was on Stalin Square and on the same (unidentified) street and the same side of the street as the Gorkiy Theatre. The school was opposite the large Univermag.¹ The school was a two-story brick building covered with chipped white plaster. It was about 30 by 15 meters in size and could be identified by a concrete balcony and white pillars.

50X1-HUM

2. The SAGU (Sredneaziatskiy Gosudarstvennyy Universitet) was next to the Univermag and across from the Communist Party school (paragraph 1).² It taught the Russian language and literature at an advanced level and graduated teachers. [redacted]
The building was old, two stories, brick, about 35 by 15 meters.

50X1-HUM

3. The Elektromekhanicheskiy Tekhnikum was about 500 meters southeast of the Tashkent Cable Plant in a little-developed area.³ The school taught the technology of electro-mechanical installation (oborudovaniye). It gave a four-year course and had about 800 students, both men and women; [redacted]
The building was three stories, about 35 by 10 meters, constructed of brick and plastered, and painted light yellow. The building was surrounded by a brick wall 1.5 meters high.

50X1-HUM

C-O-N-F-I-D-E-N-T-I-A-L

50X1-HUM

- 2 -

4. The Tashkent jail (Tashtyur'ma) was one kilometer north of the Cable Plant and about 500 meters on the other side of the Salar River from the Cable Plant. The area of the compound was estimated at about 100 meters square and was surrounded with a concrete wall about two meters high with about one meter of barbed wire on the top. The jail building was two stories high and scarcely visible over the wall. Near the jail was a cement plant and a lumber mill and furniture plant (DOZ).

50X1-HUM

5. The former military school in Tashkent, north of the Cable Plant and the Fourth Workers' Settlement, was operated as a military school for reserve officers in 1959 and 1960.

50X1-HUM

Comments:

1. The 1955 Tashkent telephone directory gave the address of the Partiynaya Respublikanskaya 3-Godichnaya Shkola pri TsK KP Uzbekistana as 30 ul. Karla Marksa, of the Dramaticheskii Teatr im. M. Gor'kogo as 28 ul. Karla Marksa, and of the Univermag as 33 ul. Karla Marksa. Stalin Square does not appear on available maps but may be the same as Skver Revolyutsii. Another described a new Party school under construction on shosse Lunacharskogo.
2. The Central Asian State University was at 32 ul. Karla Marksa (1955 Tashkent Telephone directory).
3. The Elektromekhanicheskiy Tekhnikum was at the Sotsgorodok of the Tashkent Cable Plant, 1 Polevaya ul (1955 Tashkent telephone directory).

THIS IS UNEVALUATED INFORMATION. SOURCE GRADINGS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE

50X1-HUM

1. The Communications Institute (Institut Svyazi) was on ulitsa Kirpichnogo Zavoda, adjacent to Park Pobeda, in Tashkent. [redacted] the institute taught radio and telephone communications. 50X1-HUM
2. [redacted] in October 1960 there was a wooden fence enclosing the school area. The fence was approximately two meters high and enclosed an area about 1000 meters long by 600 meters wide. [redacted] when the last building was completed the fence was to be torn down and a brick wall erected. 50X1-HUM
3. The institute had a total of four buildings, all exactly the same size. The buildings were all constructed of brick, were five stories tall, and were about 500 meters long, 200 meters wide, and 15 meters high. 2 One of the buildings was a dormitory, and the others were used for classrooms. None of the buildings had a basement. [redacted] group of fifty construction workers started working on this project in September 1953. They built the dormitory first and then two classroom buildings. These three buildings were completed by 1957. The fourth building was nearing completion [redacted] In October [redacted] 50X1-HUM
4. The first class of students entered the institute in 1957. [redacted] the total number of students to be about 500, including Russians, Uzbeks, and Greeks. The institute was a civilian school, not a military school. 50X1-HUM

C-O-N-F-I-D-E-N-T-I-A-L

50X1-HUM

C-O-N-F-I-D-E-N-T-I-A-L

- 2 -

5. As soon as each building was constructed, a civilian guard was placed at the entrance, and only authorized persons were admitted from that time on. The only antennas [redacted] on the roofs of the buildings were straight wire antennas used in broadcast and short wave band radios, i.e. the type ordinarily used by civilians for radio reception.

50X1-HUM

[redacted] Comments:

[redacted]

50X1-HUM

2. [redacted] estimates of the sizes of the area and the buildings seem implausibly large. [redacted] it is very nearly impossible to have five stories in a building only 15 meters high; in the U.S., 15 feet per story is considered average - a five-story building would thus be about 75 feet (roughly 22.5 meters) high.

50X1-HUM
